Superstore Sales Analysis

2011 - 2014

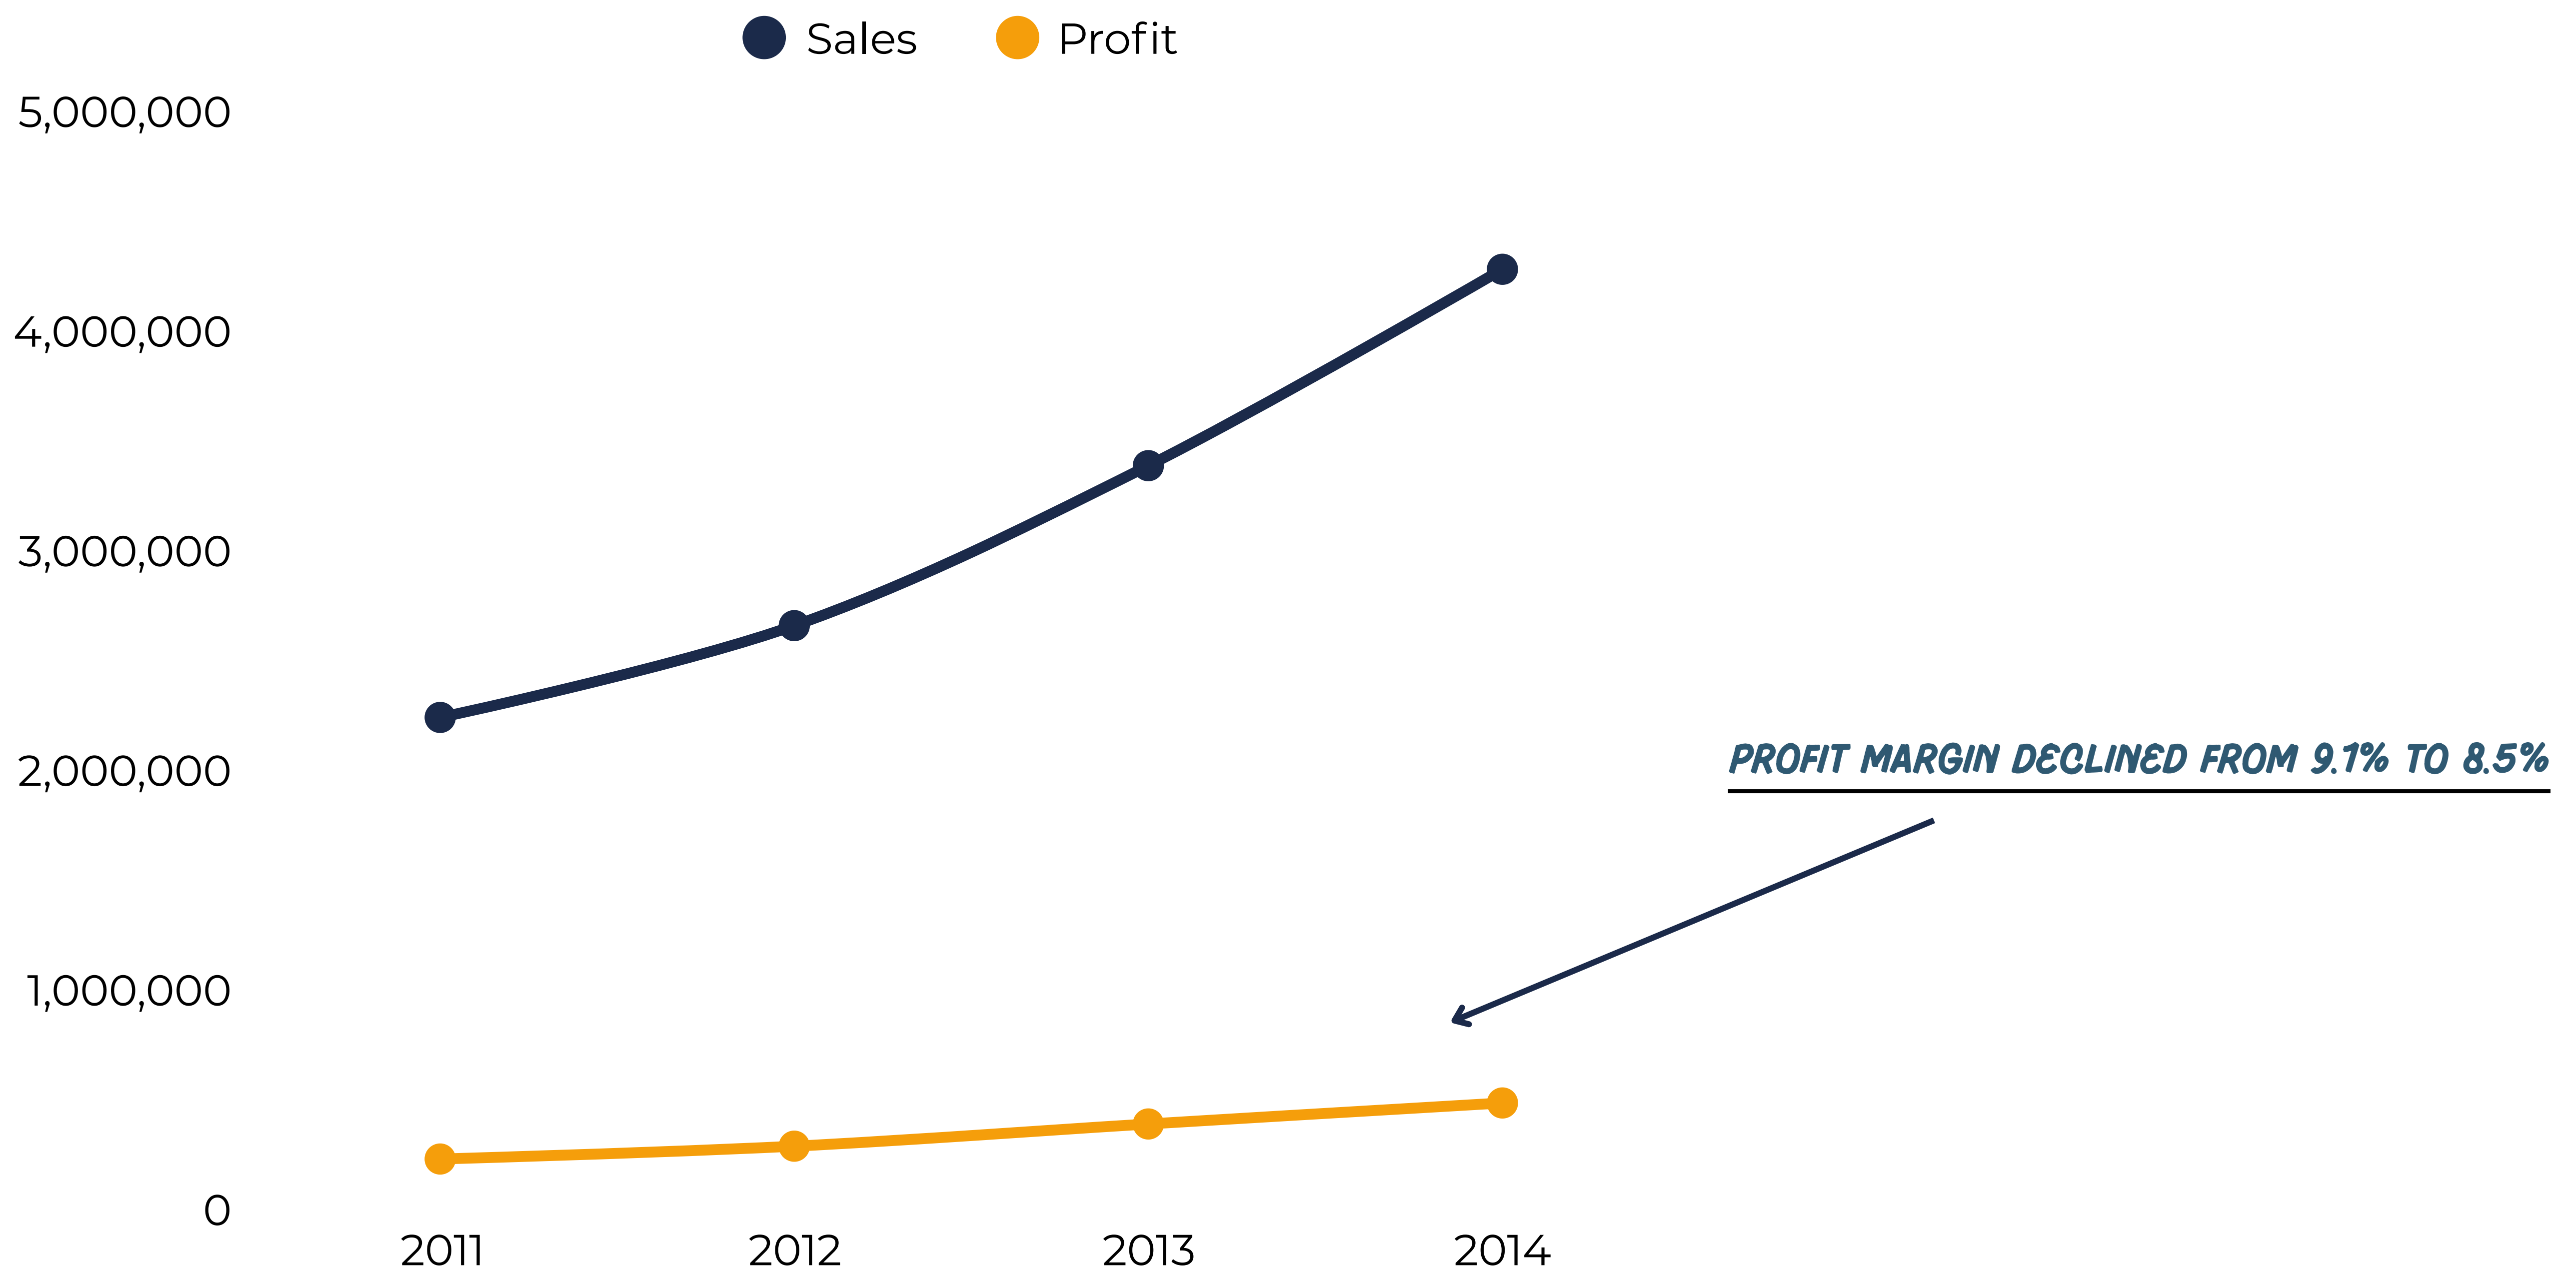
Sales, Profit & Margin Deep Dive

Business Overview

Total Sales	Total Profit	Overall Margin
$12,642,905	**$1,469,035**	**11.62%**

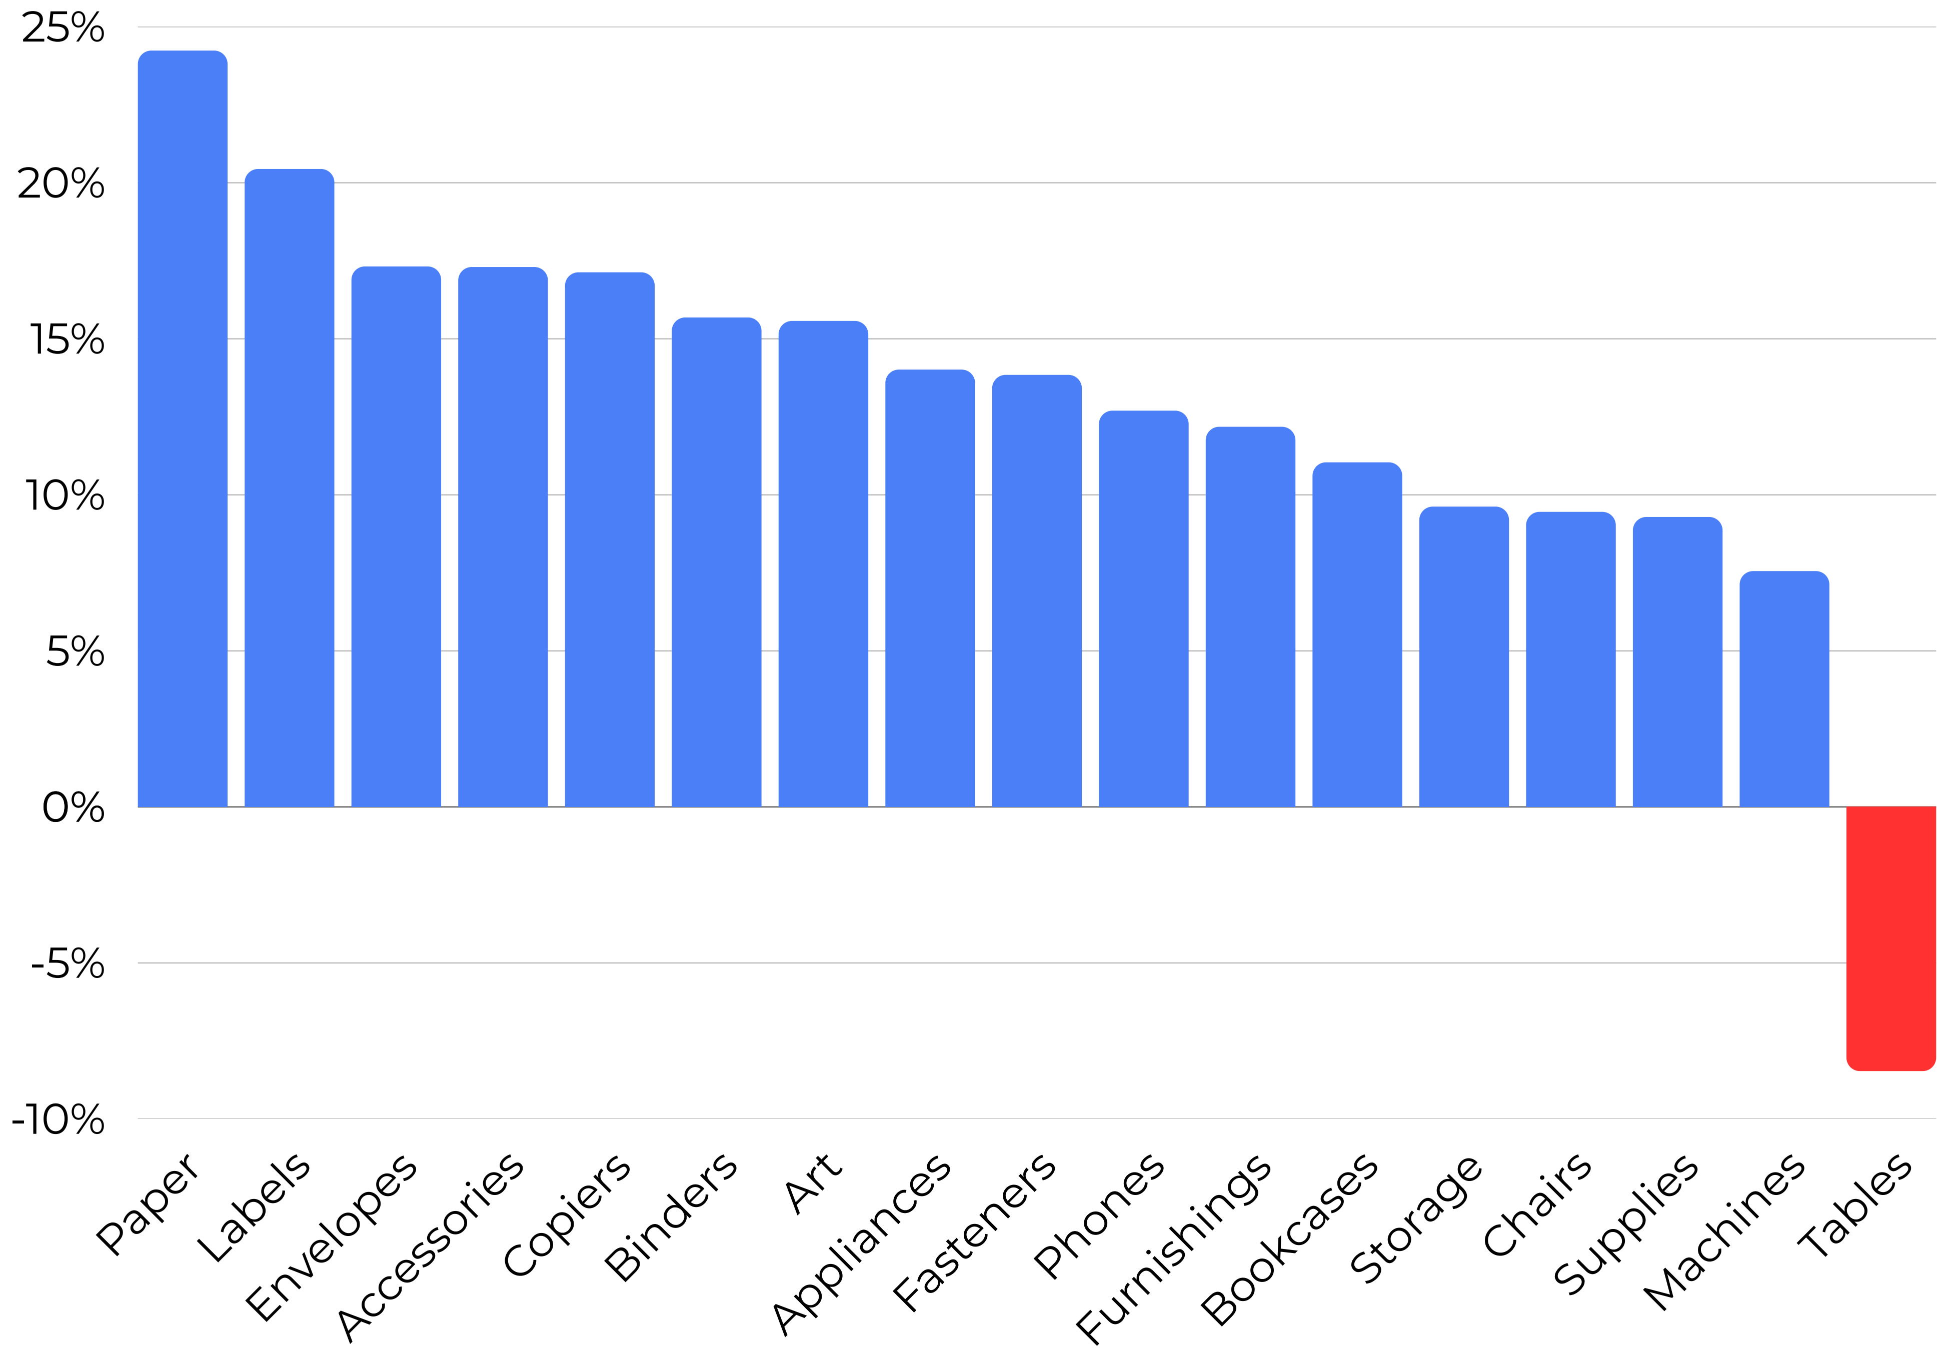
Revenue nearly doubled from 2011 to 2014, however profit margins show a slight decline.

Sales & Profit Trend 2011-2014



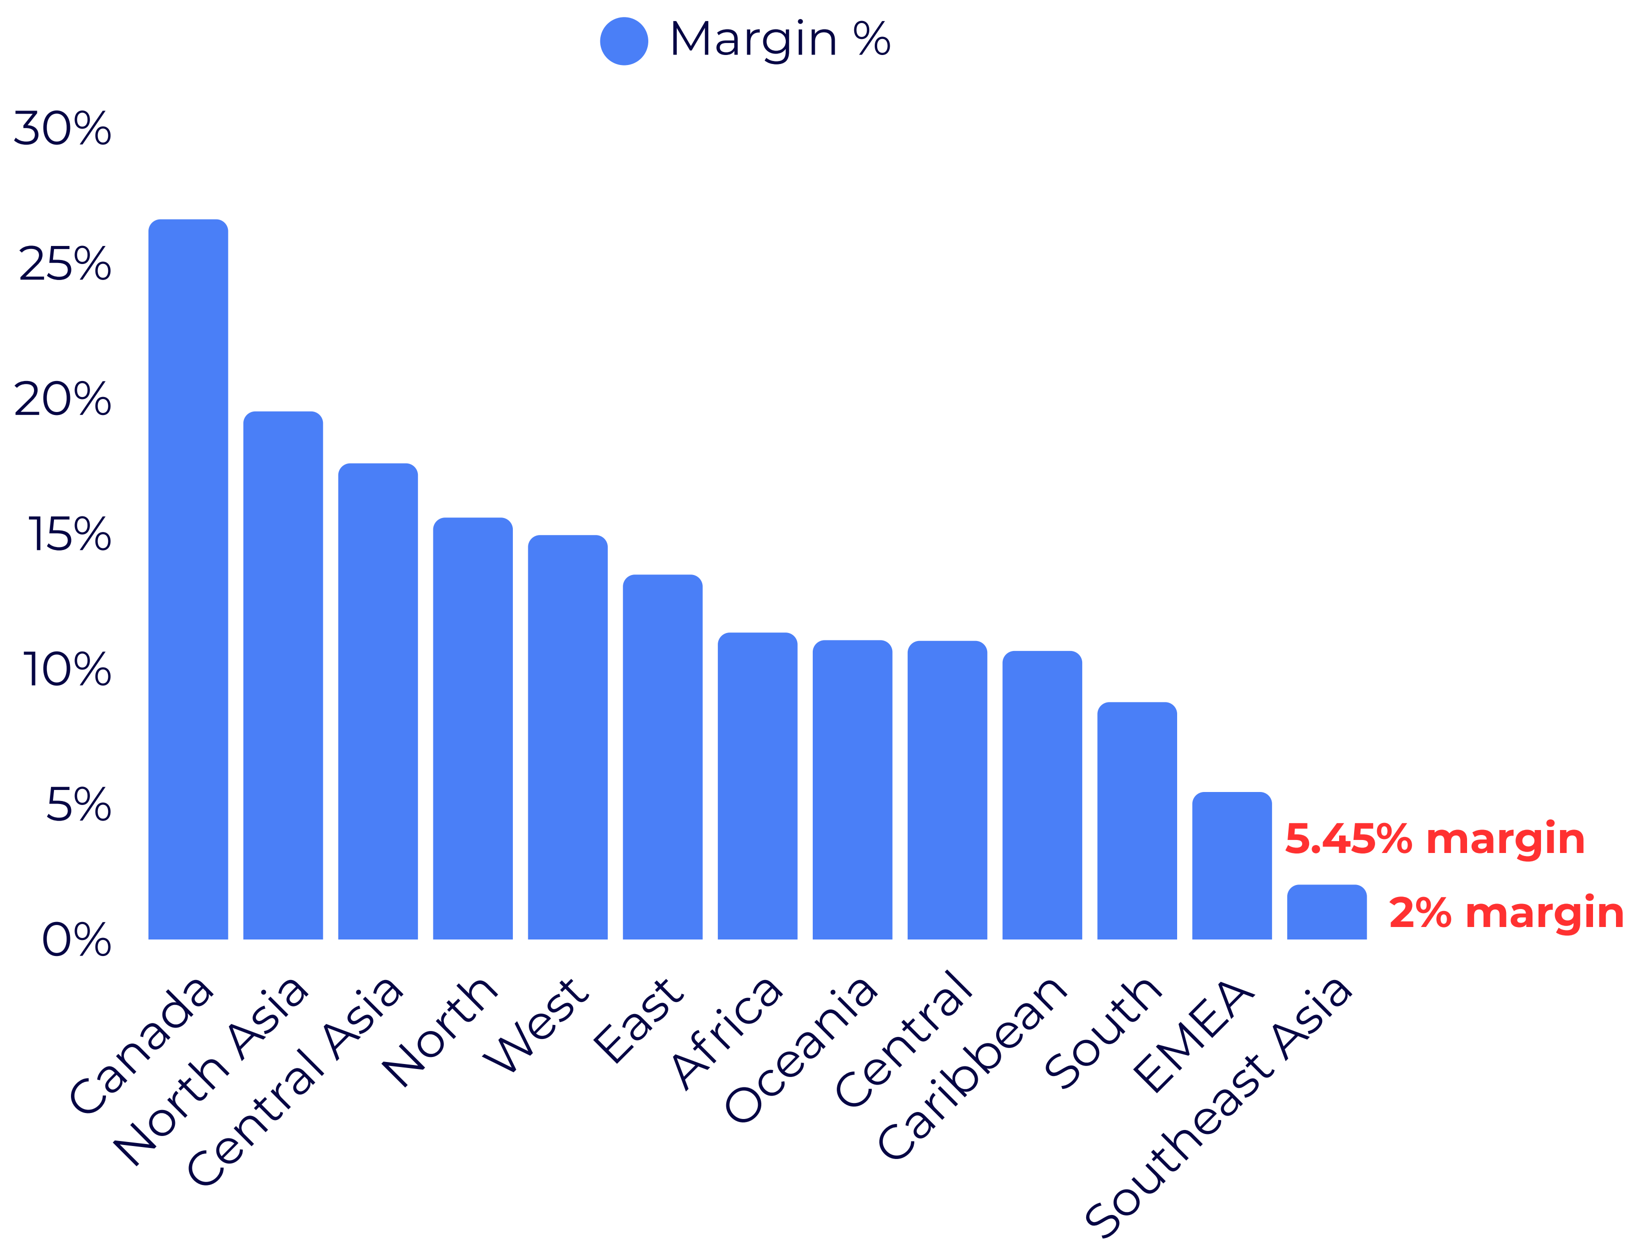
Sales nearly doubled from 2011 to 2014, while profit margin quietly declined from 9.1% to 8.5%.

Profit Margin by Sub-Category



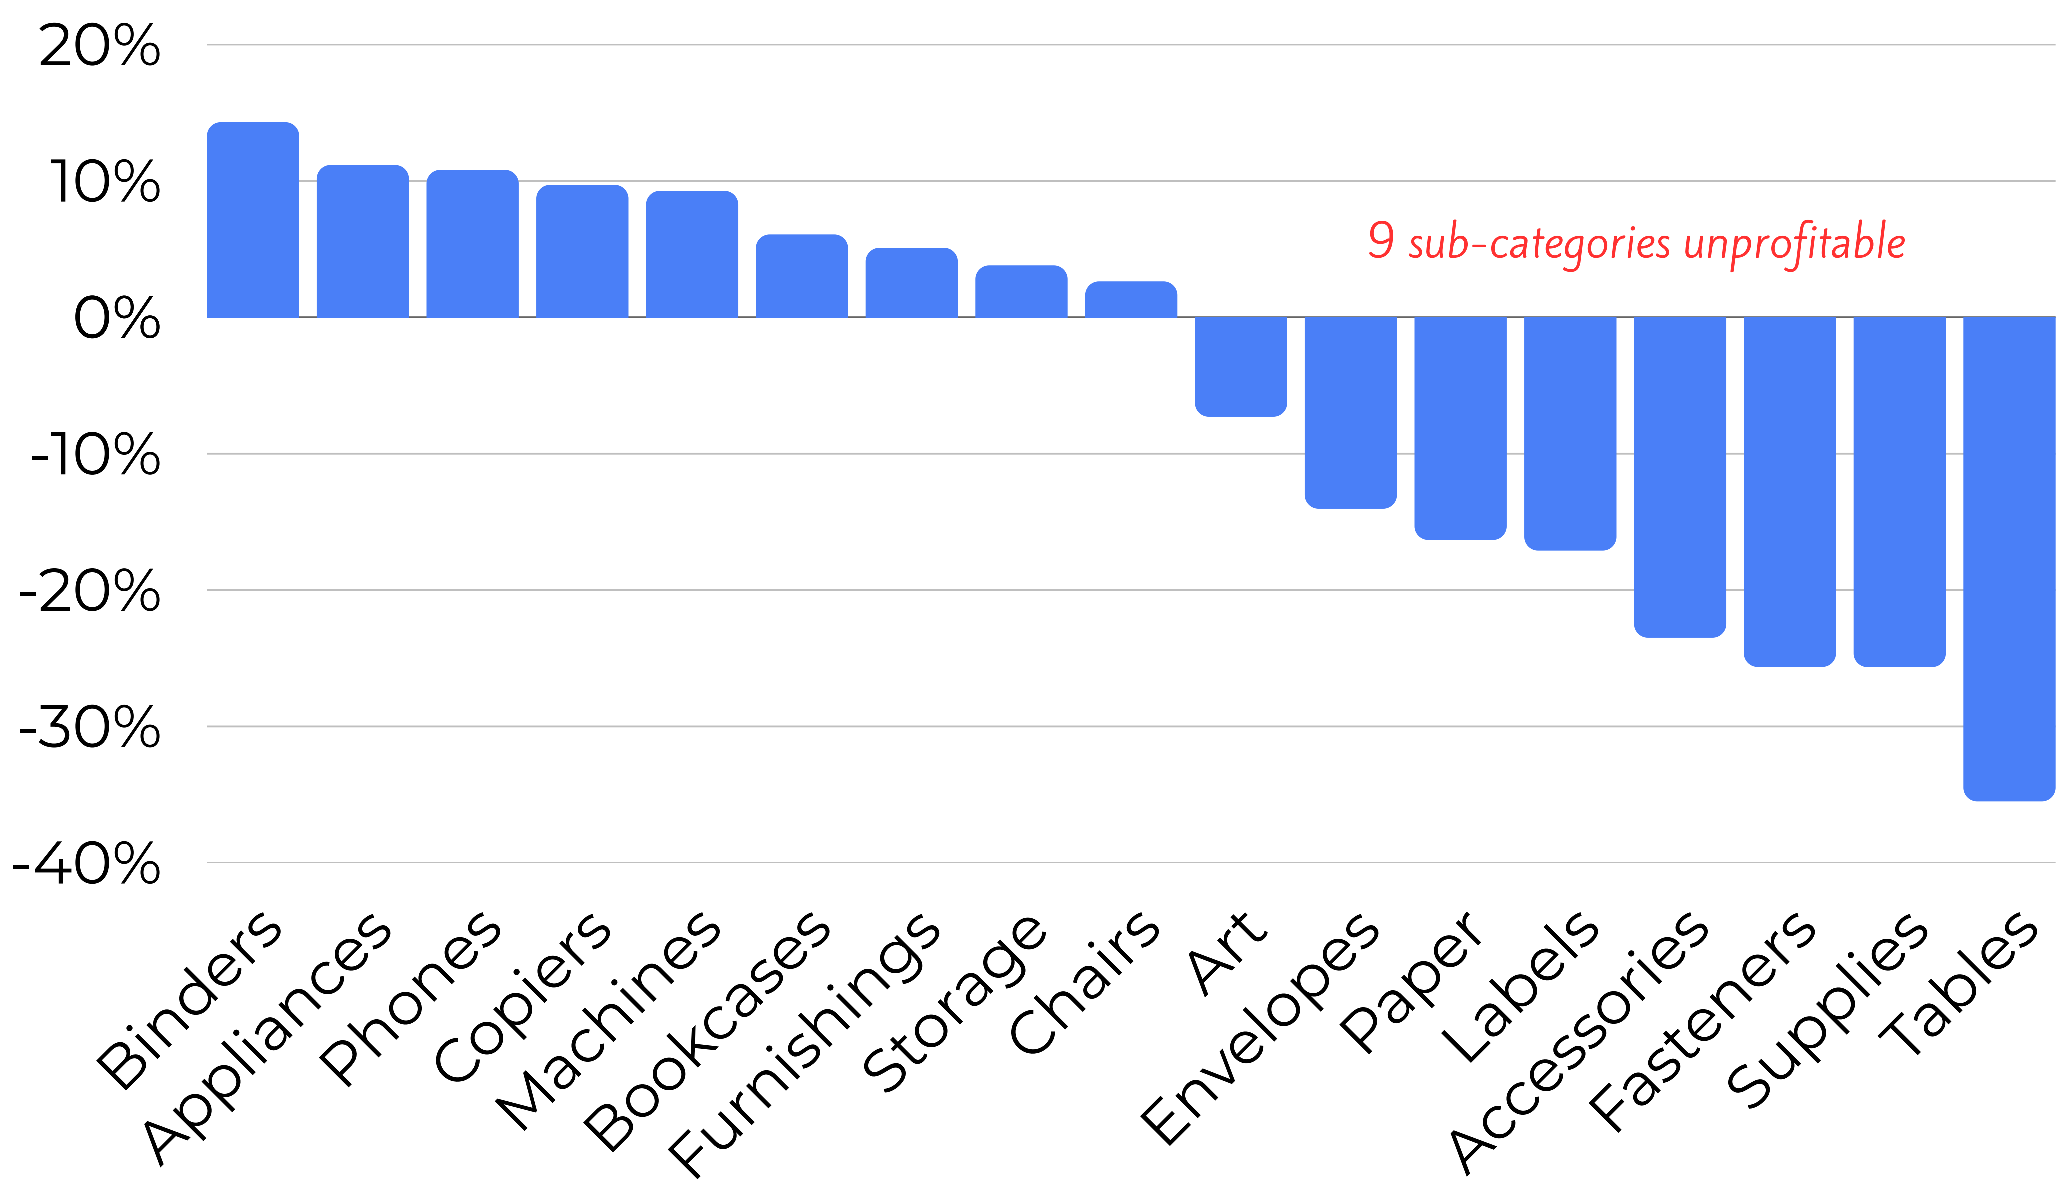
Tables is the only sub-category with a negative profit margin at -8.47%, actively losing money on every sale.

Profit Margin by Region



Southeast Asia generates 884K in sales but only 2% profit margin, driven by excessive discounting at 27% average — five times higher than North Asia.

Southeast Asia Deep Dive



9 out of 17 sub-categories in Southeast Asia are unprofitable, driven by an average discount rate of 27%.

Conclusions & Recommendations

Key Findings

- Sales nearly doubled 2011-2014 but profit margins declining
- Tables is the only loss-making sub-category globally at -8.47%
- Southeast Asia has 9 unprofitable sub-categories
- Southeast Asia average discount 27% vs North Asia 4.9%
- Copiers and Accessories are the strongest performers at 17%+

Recommendations

- Reprice or discontinue Tables immediately
- Review and cap discount policy in Southeast Asia
- Invest more in Copiers, Accessories and Phones
- Focus growth efforts on North Asia and Canada — highest margins
